

# Threat ID

## Think your organization is secure? How can you be sure?

Threat ID by ACS identifies your organization's cybersecurity risk using industry-recognized guidelines from The National Institute of Standards & Technology. Our evaluation takes a holistic approach to cybersecurity, providing strategies and recommendations to address policies, procedures, behaviors, and infrastructure, resulting in a more secure and resilient organization.

### Threat ID focuses on 5 key areas:

IDENTIFY	PROTECT	DETECT	RESPOND	RECOVER
<ul style="list-style-type: none"><li>• Asset Management</li><li>• Business Environment</li><li>• Governance</li><li>• Risk Assessment</li><li>• Risk Management Strategy</li></ul>	<ul style="list-style-type: none"><li>• Access Control</li><li>• Awareness &amp; Training</li><li>• Data Security</li><li>• Info Protection Process &amp; Procedures</li><li>• Maintenance</li></ul>	<ul style="list-style-type: none"><li>• Anomalies &amp; Events</li><li>• Security Continuous Monitoring</li><li>• Detection Processes</li></ul>	<ul style="list-style-type: none"><li>• Response Planning</li><li>• Communications</li><li>• Analysis</li><li>• Mitigation</li><li>• Improvements</li></ul>	<ul style="list-style-type: none"><li>• Recovery Planning</li><li>• Improvements</li><li>• Communications</li></ul>

Cyber-resiliency is a journey, not a destination. Hackers are continually evolving, and so should your security strategy. ACS' Threat ID provides your organization with a roadmap for security initiatives using an easy to understand visual and recommendations.

## How to Leverage Threat ID

### IT Managers & Directors

Use this evaluation to quickly and economically determine vulnerabilities within your cybersecurity strategy. Then leverage the results to procure the necessary budget to secure your organization from potential threats.

### CIO & CISO

Set goals for your team using Threat ID. Re-evaluate your organization's threat level on a quarterly, bi-annual, or annual basis to track, support, and verify expectations are being met as the threat landscape changes.

### Executives & Board of Directors

Security breaches can quickly ruin an organization's reputation and potential outlook. Don't get caught by surprise. Quickly get a high-level understanding of your organization's risk and how to increase security.
